## Gurney's CHINESE ELM HEDGE

Most folks would like to have a good hedge to divide their property or to give them the privacy of an outdoor living room. Hedging generally costs a lot of money but that isn't the case when you plant Gurney's Hedging-Type Chinese Elm.

Nothing will make you a more beautiful, more compact hedge for less money and in less time than Gurney's Hedging Type Chinese Elm. They thrive on poor soil and their growth will amaze you. The more you trim these plants, the more compact they will grow—almost like a solid wall.

Set plants 1 foot apart in the hedge row and cut back to 1/3 their original height as soon as planted. Makes a fine showing the first year.

**ALL 2-YEAR-OLD FIELD GROWN PLANTS  
BLOOM FROM JUNE 'TIL FROST.**

For years we have had our roses grown for us under contract by one of America's Foremost Rose Growers. A whole field is grown especially for us and every rose in that plot is our property. Naturally it is impossible for them to all grade out as 2 year No. 1 plants. This means the slightly smaller ones (not culls) but the No. 2 grade are literally surplus because we do not list them in our big catalog.

It looks to us like there is only one answer to the problem—offer this grade at a greatly reduced price even though they are healthy, disease-free plants that should develop into real beauties in a short time. Remember, the quality is just as high as any other grade. We would get double what we are charging if they were only a little larger. You won't receive a single cull or damaged rose when you take advantage of this offer.

By allowing us to ship to you by color and name you get the same roses at a great reduction in price and it will help us get rid of our surplus.

## Plant GURNEY'S GOLDEN HYBRID and SAVE up to \$300 per bu.

### Did You Ever Think About This?

This is not a claim but a fact. We offer to save you the dealer's commission. We think no one is justified in claiming to have the best corn on the market so we don't claim it. We do know our corn is as good and will hold its own in competition with any other brand. Year in and year out it will be on top as often as any other single variety. Because we eliminate commissions, Gurney's Golden Hybrids sell for 2.50 to 3.00 per bushel less. This is a solid fact—not just a claim.

### WHY PAY MORE?

You can pay more for seed corn than we charge for Gurney's Golden Hybrids, but if you do, the extra money won't get you any better seed corn. All it will do is pay the dealer's commission. We don't have any dealers so there is no commission to pay. But the corn is first class. Try it and see for yourself as thousands of others have.
